

RAVEEN SANDINU ABEYDEERA

UNDERGRADUATE - SOFTWARE ENGINEERING | Location: 102/A1, Raja Mawatha, Rathmalana
LinkedIn.com | Portfolio | raveen.s.abeydeera@gmail.com | (+94) 72 495 8938, (+94) 71 395 8938

SUMMARY

Passionate software engineering undergraduate equipped with hands-on experience building microservices, PWAs, and native mobile applications. An effective communicator and critical thinker. Awarded for exceptional service and teamwork, I leverage strong time management and problem-solving skills to deliver high-quality code. Seeking an internship to contribute my technical expertise and proven teamwork to a dynamic development team.

Experience

Full-Stack Project – Academic – ICBT – Wildroute :- Intelligent Human-Elephant Conflict (HEC) Mitigation System (PWA) Dec 2025 – March 2026

- Developed a full-stack Progressive Web Application (PWA) using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Engineered an interactive mapping tool, efficiently managing RESTful APIs and database operations.
- Designed a responsive, modern user interface using Tailwind CSS, and integrated interactive mapping functionality powered by Leaflet and Mapbox.
- Implemented secure user authentication with JWT (JSON Web Tokens) and bcrypt for password hashing.
- Utilized Cloudinary for cloud-based media handling and secure storage.
- Ensured offline access and native-like performance through Progressive Web App capabilities.

The Gadget Hub: Microservices E-Commerce PlatformProject– Academic – ICBT – Feb 2026 – Feb 2026

- Built a distributed Service-Oriented Computing (SOC) e-commerce platform simulating a scalable backend architecture.
- Engineered a dynamic Quotation Service using Python, Flask, and MySQL that concurrently queries multiple vendor APIs to aggregate and compare real-time inventory pricing.
- Programmed the system to automatically coordinate between an order orchestrator and independent distributor APIs to secure the lowest prices for users.
- Integrated a relational database to track cross-service transactions, maintaining data integrity between parent orders and child inventory nodes.
- Developed a comprehensive QA suite featuring multithreaded load testing and security assessments to mitigate SQL injection vulnerabilities.
- Designed an interactive frontend client using Gradio for seamless user order placement, cart management, and asynchronous receipt generation.

Mobile App Development Project -- Academic -- ICBT – Luxe Vista Resort App Aug 2025 - Oct 2025

- Engineered a native Android application acting as a premium digital concierge to enhance luxury resort guest experiences.
- Developed the application using the Android SDK, Java/Kotlin, and SQLite/Firebase.
- Built a centralized platform for guests to manage their stay, featuring a robust room booking system equipped with date-based availability filtering.
- Integrated a service reservation system allowing guests to book amenities such as Spa treatments and Dining.
- Implemented a secure user account management system to protect guest data and reservation details.

Web Application Project - Academic – ICBT --- Greenlife Wellness Aug 2025 – Sep 2025

- Developed a comprehensive web-based platform to streamline the daily operations of a wellness center using HTML, CSS, JavaScript, PHP/Node.js, and MySQL.
- Designed an interactive client portal allowing users to browse wellness services and view detailed therapist profiles.
- Engineered a real-time online appointment booking system.
- Built a secure client dashboard for users to manage personal profiles, modify settings, and track past or future bookings.

Software Development Project - Academic Project – ICBT --- Pet Shop Management System Jun 2023 – Aug 2023

- Designed a robust software engineering project focused on backend logic and inventory control using Java and MySQL/SQLite.
- Architected the system around core Object-Oriented Programming (OOP) principles to ensure scalable and maintainable code.
- Developed dual interface support, featuring both a Java Swing GUI and a Command Line Interface (CLI).
- Engineered comprehensive inventory and staff management capabilities with full support for standard CRUD operations.
- Implemented role-based access control for secure user role management (e.g., Admin vs. Cashier).

Education

- **B.Sc. (Hons) in Software Engineering – Undergraduate - Cardiff Metropolitan University**
International College of Business and Technology (ICBT), Bambalapitiya, Colombo (main head office), Sri Lanka
Expected Completion: May 2027
- **Higher Diploma in Computing and Software Engineering - Cardiff Metropolitan University**
International College of Business and Technology (ICBT), Bambalapitiya, Colombo (main head office), Sri Lanka
Expected Completion: March 2026
- **Diploma in Information & Communication Technology - 2024**
International College of Business and Technology (ICBT), Bambalapitiya, Colombo (main head office), Sri Lanka
- **G.C.E. Ordinary Level**
Vidura College, Thalawathugoda, Sri Lanka December 2019

Skills & abilities

- **Programming Languages & Tech** : Java, C++, Python, Flask, HTML, CSS, JavaScript, TypeScript, React.js, Node.js, Express.js, Bootstrap, Tailwind CSS, Kotlin, Gradio.
- **Cloud & DevOps** : AWS Fundamentals, DevOps Principles, CI/CD Concepts
- **Databases** : MySQL, SQLite, MongoDB
- **Tools & Platforms** : Git, Visual Studio Code, Postman, Cloudinary, NetBeans, Version Control, Antigravity
- **Core Concepts** : Software Engineering, Mobile App Development (Android), Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Data Structures & Algorithms, Microservices Architecture, RESTful API Aggregation, and Software Testing (Unit/Load), UI/UX Basic Concepts.
- **Soft Skills** : Adaptability, Teamwork, Problem Solving, Leadership, Critical Thinking Time Management Effective Communication

CERTIFICATIONS

- Introduction to Software Engineering – IBM (Coursera), Mar 2026
- Introduction to DevOps – IBM (Coursera), Mar 2026
- Introduction to Mobile App Development – IBM (Coursera), Mar 2026
- Get Started with Android App Development – SkillUp (Coursera), Apr 2026
- AWS Certified Cloud Practitioner Essentials – AWS (Coursera) , Apr 2026
- Certificate of Excellence – Digital Mobility Solutions Lanka (Pvt) Ltd. (PickMe) (Oct 2024)
 - Recognized for outstanding dedication and exceptional service as a top-performing team member.
- Cambridge English KET (A2 Level) – ESOL Certified
- Microsoft Office Diploma – Distinction Level
- Spoken English (Distinction) – Wendy Whatmore Academy

Languages

- English: Fluent (Spoken & Written) | Sinhala: Native (Spoken & Written)
